

5. Pre-Placement Interaction

| TPO & Student Development Cell | |
|---|--|
| Activity Report | |
| Name of Activity | Pre-Placement Interaction |
| Title | Pre-Placement– Industry Ready |
| Date | 07/07/2024 |
| Venue | St. Wilfred’s College of Computer Sciences |
| Organized by | Training & Placement Officer |
| Enrolled Students | 44 |
| Event Objective | To familiarize candidates with potential employers, understand job expectations, and build professional relationships that enhance the chances of securing placement opportunities. |
| Event Summary | <p>Our endeavor is to ensure as best placement as possible for all out-going students. This is an extremely important activity of the institutes as its brand image depends, to quite an appreciable extent, on the quality of placement. Good placement not only enhances the reputation of the institute, but also infuses a high degree of confidence in the students at the time of admission.</p> <p>The process commences through interaction with different organizations of repute who appoint management graduates from premier / reputed management institutes regularly. We maintain a database of the organizations where our students had been placed earlier and update information on a continuous basis. We are happy to note that the quality of placement has been improving continuously. However, our quest for excellence continues and we are not at all complacent.</p> |
